DESCENDANTS OF ALL WORLDS

**Descendents of
all Worlds is a photo
documentary project that uses
photographs to challenge prejudice.**

**Developed by Heartstone, a UK non-profit organisation
aiming to make storytelling and dance accessible across
cultural divides, the Descendents of all Worlds project uses
photo documentary to challenge stereotypes, raise awareness
of racism, xenophobia and other forms of intolerance.**

**Heartstone launched this project at the House of Commons in
June 2006. The first part of the Nottingham exhibition focuses on
images from the Balkans and Afghanistan, taken by Heartstone
Photographer Nick Sidle, and funded by Neighbourhood Development
Company (NDC). Further exhibitions will continue throughout the
year from other parts of the world.**

**The aim is to make all the stories relevant both in the context
of world events as well as prejudice/intolerance from a number
of different directions.**
